SOFTWARE DEVELOPER

softwaredevoptam  

 Tokyo, Japan

softwaredevoptam@gmail.com 

SKILLS

STRONG JavaScript, Node.js, VueJS, ReactJS, Redux, Express.js, Heroku, PostgreSQL, Next.js, MongoDB, WordPress, HTML/CSS.

EXPERIENCED Rust, GraphQL, AWS, CircleCI, Unit Testing in Mocha/Chai/Jest, Knex.js, GatsbyJS, Docker, Vue Test Utils.

PROJECTS

Dragon Tester

 /Team-Draconis/Dragon_Vercel

June 2020

A Full Stack Web App for helping hiring managers to test/evaluate frontend developers' skills.

- Developed multiple choice quiz using **ReactJS** using Hooks and Providers.
- Connected Github OAuth Login using **NextAuth.js** and developed backend with **MongoDB**.
- Technologies Used: Next.js, MongoDB, OAuth, Docker, AWS, Framer Motion, Material UI, Styled Components.
- Presented Demo at a Public Event: bit.ly/ytDragonTester, Website: bit.ly/dragontester

Jeetbot

 /JeetBot-Team/JeetBot

May 2020

A Discord bot with server moderating features.

- Designed with **Discord.js** to create moderation features and bootstrapped the front-end using **GatsbyJS**.
- Continuously integrated on **CircleCI**, deployed bot to **AWS EC2**, and designed backend with **MongoDB** to store server data.
- Presented Demo Online: bit.ly/ytJeetBot, Website: www.jeetbot.com

Kampai Cocktails

 /kampai-cocktails/kampai-cocktails

May 2020

Full-stack web app that helps users select cocktails to enjoy.

- Developed frontend with **ReactJS** and developed backend relational DB with **Knex.js**, **Heroku**, & **Postgresql**.
- Utilized **Rakuten RAPID API** to develop fast prototyping.
- Presented Demo at a Public Event: bit.ly/ytKampaiCocktails, Website: kampai-cocktails.firebaseio.com

Taminal Shell

 /softwaredevoptam/turtle_shell

May 2020

Command-Line Shell app allowing users to traverse their file system.

- Created a **terminal shell** in **Rust** to search the file system, open files, and create new directories.
-

PROFESSIONAL/WORK EXPERIENCE

Executive Assistant to CFO/CEO

AA Industrial Services

Los Angeles, CA, USA

Jun. 2007 - Jan. 2020

- Created systems to sourcing and purchasing equipment within the U.S. by implementing a purchase tracking pipeline.
- Supervised over 3 logistic teams throughout the United State on time management.
- Successfully negotiated procurement contracts leading to a 50% cost cut.
- Generated sales revenue, forecasted project costs, and expense charts per week to help CFO/CEO make business decisions.
- Solved over 100 customer problems by co-sourcing documentation on identified machinery issues.
